Welcome
From HS

We believe that web hosting is about clients not about websites and servers. We believe in developing a strong and friendly relationship with our clients. This personal approach of doing business helps us in understanding clients' needs. Our strong emphasis on client satisfaction combined with humaninteraction in doing business with our clients sets us apart from the rest of hosting companies around.

We take pride in our customer service and strive to keep your business going every day. We provide web hosting service at discounted prices. So that all the people can have a chance to put their dreams into reality by making their presence all over the world.

Unlike other companies, Hostersol actually owns our hardware on which we provide services. Thus we have the control and flexibility to actually deliver what we advertise. With innovations in control panel technology, and hosting package offerings, Hostersol continues to stay one step ahead of the competition. We are one of the few hosting firms to offer both Linux and Windows based hosting solutions. Our high quality packages coupled with our 24 hour support make our solutions the best value proposition in the industry.

Our mission is to provide fastest web hosting by employing appropriate hardware and software solutions to our clients at very affordable rates.

The
Company

Founded in March 2012, by webmasters who sought to create a perfect web hosting environment for fellow webmasters of all types, Hostersol answered the needs of many Internet users for a reliable source of best services. At that time, Hostersol offered email forwarding, mail accounts and e-mail list management. In 2013, Hostersol upgraded its service offerings and began offering virtual domain and subdomain hosting, along domain name services and thus became a commercial web hosting company in 2017.

Today, Hostersol specializes primarily in website solutions. We provide hosting services, domain services and security services along with consultancy and training services world-wide and are proud to serve thousands of customers across the globe.

Why Choose Us?

We always provide outstanding, fast, and reliable hosting services that come with outstanding technical experts in no time that are available 24/7/365.

Reliability

Equipped with advanced infrastructure and server architectures together

Speed

Run Your Sites on the 20x Fasters Hosting Platform on the Planet.

Safe And Secure

Our data centers have the lowest latency along with top-level network security.t

Priority Support

Our experienced team of technical support and sales experts are available 24/7.

Uptime

Keep your project online with 99.9% uptime and our top notch hosting services

Our Hosting Services

Hostersol, as a competent web hosting services company makes sure, you host your website with perfecting every aspect you need for your business!

cPanel (Linux)

Get fully managed Linux Shared Hosting with easy one-click installations and excellent support. We can offer the blend of reliability and speed which you desire.

Windows (Plesk)

We recommend Microsoft Windows servers for ASP .NET, ASP, .Net Core, and SQL server users with 24/7/365 expert support. We always guaranteed 99.9% uptime.

WordPress Hosting

Blazing fast WordPress Hosting with pre-installed plugins and themes with free Domain plus you will get a free SSL. Now WordPress hosting is just a click away.

Business Hosting

It's the best of both worlds – the amped-up power of a Virtual Private Server, but with an easy-to-use control panel that doesn't require any degree to operate.
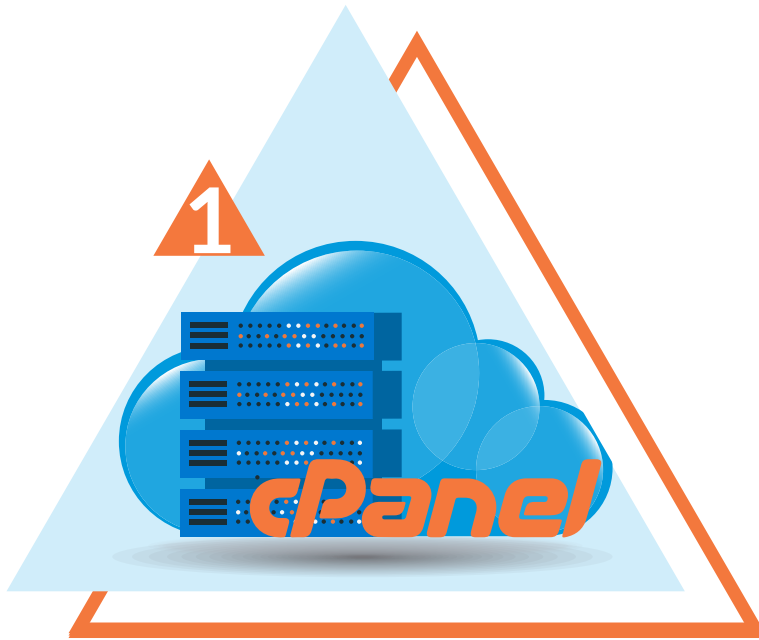

Virtual Servers (VPS)

Total control with full root access and optional control panels with Self-Managed VPS Hosting. Enjoy Backup with uptime and real-time performance monitoring.

Dedicated Server Hosting

Experience peak performance backed with 24×7 Live Support & Full Server Management. Specially designed for system admins and developers to enjoy the dedicated resource.

cPanel (Linux)

cPanel is one of the most popular control panels among web developers and hosting companies. It is typically paired with WHM (Web Host Manager) – both components work hand-in-hand, with each playing separate roles. Web Host Manager provides administrative control over the server. In addition to server configurations, WHM creates multiple accounts and manages more than one website.

Windows (Plesk)

HosterSol Window Hosting offers the best managed solutions to support your business needs. Available with Pre-build Software, our Plesk(Window) Hosting come with Proactive Sonar Monitoring™ and Server Secure hardening. Monitoring your servers, mitigating risk, and helping you optimize performance: our support team is always here to help. Our Most Helpful Humans in Hosting® are available 24/7/365 to assist.

WordPress Hosting

Our managed WordPress hosting comes with ready-to-use features, so you can start building your website in no time. Enjoy our 1-click installer, user-friendly control panel, and automatic WordPress updates. Plus, get pre-installed performance WordPress plugins and marketing tools to grow your online presence. Our WordPress hosting service uses LiteSpeed servers and includes the LSCWP cache plugin to improve your twebsite performance.

Buisness Hosting

With Business hosting, you'll enjoy greater private disk space and higher overall resource availability. This will be necessary if you want to expand your business and need to offer. All actions to run your business will be taken care by your server providers.

Virtual Servers (VPS)

We believe Self Managed VPS Hosting is a great fit if you're a developer, designer, or system administrator with experience managing servers. You get full root access with SSH keys for total control as well as command line for flexibility and power. Plus, we offer a wide range of scalable performance options with flexible server configurations.

Dedicated Server Hosting

Calling all experienced developers, system admins or agencies seeking powerful server capabilities: our Dedicated Server Hosting provides high-performance server options with isolated resources to run mission-critical applications where latency and uptime matters.

Our Domain Services

Finding the perfect website domain is as easy as 1-2-3. Buy a domain name, build and host a website, and enjoy our professional website domain services.

Domain Registration

A domain name, or web address, is an address where you can be found online. It's how you'll express yourself through email or your website and it's what customers think of when trying to find you.

Bulk Registration

Find domain names fast, with one of the quickest and most comprehensive bulk search tools on the market. Search up to 5,000 keywords at once and buy multiple domain names, in just a few clicks.

Domain Transfer

We make managing your domain(s) simple. Whether you have one domain name or hundreds, we make sure the transfer process is seamless, fast and secure.

Bulk Transfer

Whether you are looking to transfer two domains or two thousand domains, our bulk transfer tool has you covered. Follow our simple steps to get your bulk domain list transferred efficiently.

Domain Backorder

Our powerful automatic domain monitoring system will attempt to register it for you as soon as it drops, as long as the current registrant does not renew it again.
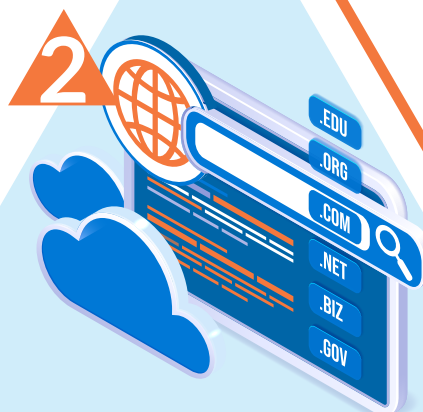

Domain Registration

HosterSOl offers fast and affordable domain name registration with instant activation and dedicated live support. With HosterSol, you can both register a domain and host your website. We aim to make your life easier and simplify your services by offering both! Speaking of easy solutions, that's exactly the type of web hosting service you'll get at HosterSol.

Bulk Registration

Our bulk domain registration makes it easy to register for multiple domains at once, Just let us know your domain names . In seconds, you'll see the current status of the domain names you have asked. You can even narrow your bulk registration by letting us know specific keywords for your domains, This will speed up our search time and we can secure your domains even faster.

Domain Transfer

With 84+ million domains registered, we're the world leader and know how to take care of your domains. If your current domain provider isn't giving you the pricing, support and service you need, you want to consolidate your properties or it's just time for a change — we can help. Our goal is to make the transfer process as simple as possible so that you can get on with more important things in your life.

4

Bulk Transfer

Whether your are looking to transfer two domains or two thousand domains, our bulk transfer tool has you covered. Follow HosterSol simple steps to get your bulk domain list transferred efficiently. At HosterSol, all our prices are transparent with no hidden fees. Once your domain transfer is complete, each of your domains will have access to the many advantages we provide such as free forwarding & stealth forwarding, free parking, free for-sale landing page, free DNS settings, and more!

Domain Backorder

A Domain Backorder is a service that helps you to acquire a domain name that is currently registered, the very moment it becomes available again. Our powerful automatic domain monitoring system will attempt to register it for you as soon as it drops, as long as the current registrant does not renew it again.

5

Our Security Services

Website security is a top priority for any website owner or webmaster. We offer website protection and security hardening services for all business types.

Website Security

Website Security provides easy-to-use tools that help you protect your site from the most common security attacks.

SSL Certificate

SSL certificates automatically create a secure, encrypted connection between your website and the visitor's browser when they visit SSL-protected websites.

Managed SSL Service

We provide you with a service where your SSL certificate is installed, configured and deployed by us automatically, meaning you don't have to do anything.

Website Backup

Keep your website backed up on servers operated by our security team. As a company known for website security, we take precautions to ensure that your website files and database are safeguarded in a remote location.

Website Security

Prevention is the best cure against hackers—it's usually a lot easier to avoid getting hacked than it is to fix an already hacked site. HosterSol security uses daily vulnerability scanning, automatic vulnerability patching, and a pro-active web application firewall to greatly reduce the chance of a hacker breaching your website.

SSL Certificate

At HosterSol, you get a wide range of SSL Certificate options from free SSL Certificates to Premium and Advances SSL options for your eCommerce and mission-critical sites. Our affordable SSL Certificates offer quick setup that makes HTTPS easy. Enhance your web hosting account and your website with an SSL Certificate to increase visitor trust, search engine traffic, website security and much more!
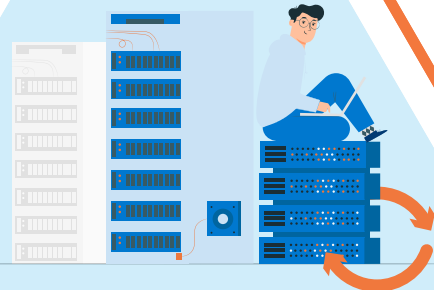

Managed SSL Service

Let's face it, managing multiple SSL/TLS certificates across a number of domains can be a challenge from an administrative standpoint. You have to worry that they're all installed right, you have to worry about renewal dates–it's a lot to process. That is why HosterSol make it easy for their customer by managing these things itself. So their customer wont have to worry about these things.

3

Website Backup

Website security is important because nobody wants to have a hacked website. If a website is hacked and blocklisted, for example, it loses up to 98% of its traffic. Not having a secure website can be as bad as not having a website at all or even worse. So HosterSoL make sure that if those issue arise customer can easily restore their website by using the backup which was daily taken. and strength its security so that it wont get hacked again.
